EC 300 GP

GASGAS COMES OUT SWINGING WITH A SPECIAL EDITION 2-STROKE ENDURO BIKE – THE EC 300 GP!

Easily the best looking enduro bike we've ever produced, taking inspiration from the GASGAS raced to victory in the 1994 Enduro World Championship, this stunning new model is much, much more than 'just' a beautiful looking bike. Beyond the black rims, black frame, sick graphics, and the anodized hardware like the front axle puller and SUPERSPROX rear sprocket, there's a Map Select Switch for tailored power and a skid plate to protect the motor for continued performance. Speaking of performance, a radiator fan keeps things cool no matter how wild things get. In addition, there's also a set of METZELER 6 Days Extreme tires, which'll give you all the traction needed to get up and over whatever obstacles you tackle. The EC 300 GP is without a doubt the most complete enduro bike we've ever built. We know you're going to love it just as much as we do.
